

FUTURE FORWARD PLAYBOOK

CAREER TECHNICAL EDUCATION is no longer the days of shop. Today, CTE students receive training for many of our region's most competitive and highest paying jobs, all while they're in high school. The CTE track takes careful planning, but can be one of the most rewarding paths for students. Check out the steps below.

1ST QUARTER

Discover high-paying, technical careers and meet industry leaders at **Worlds of Work Varsity** at Shelton State Community College. This free, annual event takes place the second Thursday in October. Stay up-to-date at worldsofwork.com.

Join the **Huddle!** Meet with industry leaders at your school for Huddles, where you will learn more about career opportunities and technical education. Parents/guardians are encouraged to attend. Your school will have Huddle details, so stay in the know!

2ND QUARTER

3RD QUARTER

It's time for the **Playoffs!** Experience industry that sparks your interest at your Playoffs Industry Tour. Your parent or guardian is encouraged to join you to learn more about where you may work after graduation.

Signing Day has arrived! Sign up for career technical education courses in March. You can talk to your school counselor or CTE director about these courses and check out career pathway information at worldsofwork.com.

4TH QUARTER

WIN BIG!

Interview for competitive jobs at **WOW 2.0**. Designed for high school seniors and juniors, this event is held in April. Details: worldsofwork.com.
